White Label Hosted VoIP Platform for Resellers and Service Providers

What we do, and very well...

Cloud Based, White Label  
Hosted VoIP Platform  
for Service Providers and Resellers

- Began in 2005
- Designed and built our own software
- Private with self funding, no equity/angels
- Stable, profitable and growing
- Main data center in Maryland (Under Armour Corporate Facility)
- Backup data center in Colorado
- Full redundancy, replication and high availability
- Help Desk staffed from 7am until 8pm (EST)
- Agile, responsive and committed

## About Talking Platforms

- White Label – 100% pure private label. No Trace of Talking Platforms
- Channel Friendly – Resellers/Service Providers Only. Leads to partners
- Your Business – No commission splits and your in control
- Independent – Don't rely on softswitch manufactures or open source software/community
- Private – Self funded, no outside influence
- Experience – Started from the early days of VoIP.
- Billing – Fully integrated Billing, Accounting and Tax system. SureTax™/Proration
- Support – Option for standard or White Label End User Support
- Affordable – No revenue requirements, bandwidth charges or onsite training
- Secure – Multi-stage Authentication, DDoS/DoS protection

How we're different...

## What we offer:

- Hosted PBX Accounts
- Hosted SIP Trunks
- Hosted Single Line Accounts
- Virtual PBX/Single Line accounts

## Associated services:

- Web Based Fax
- Call Recording
- DID's (USA, Canada, Int'l and Toll Free)
- Directory Listing
- CNAM ( caller ID name)
- T.38 Fax
- 911 Registration
- LNP (porting of existing numbers)

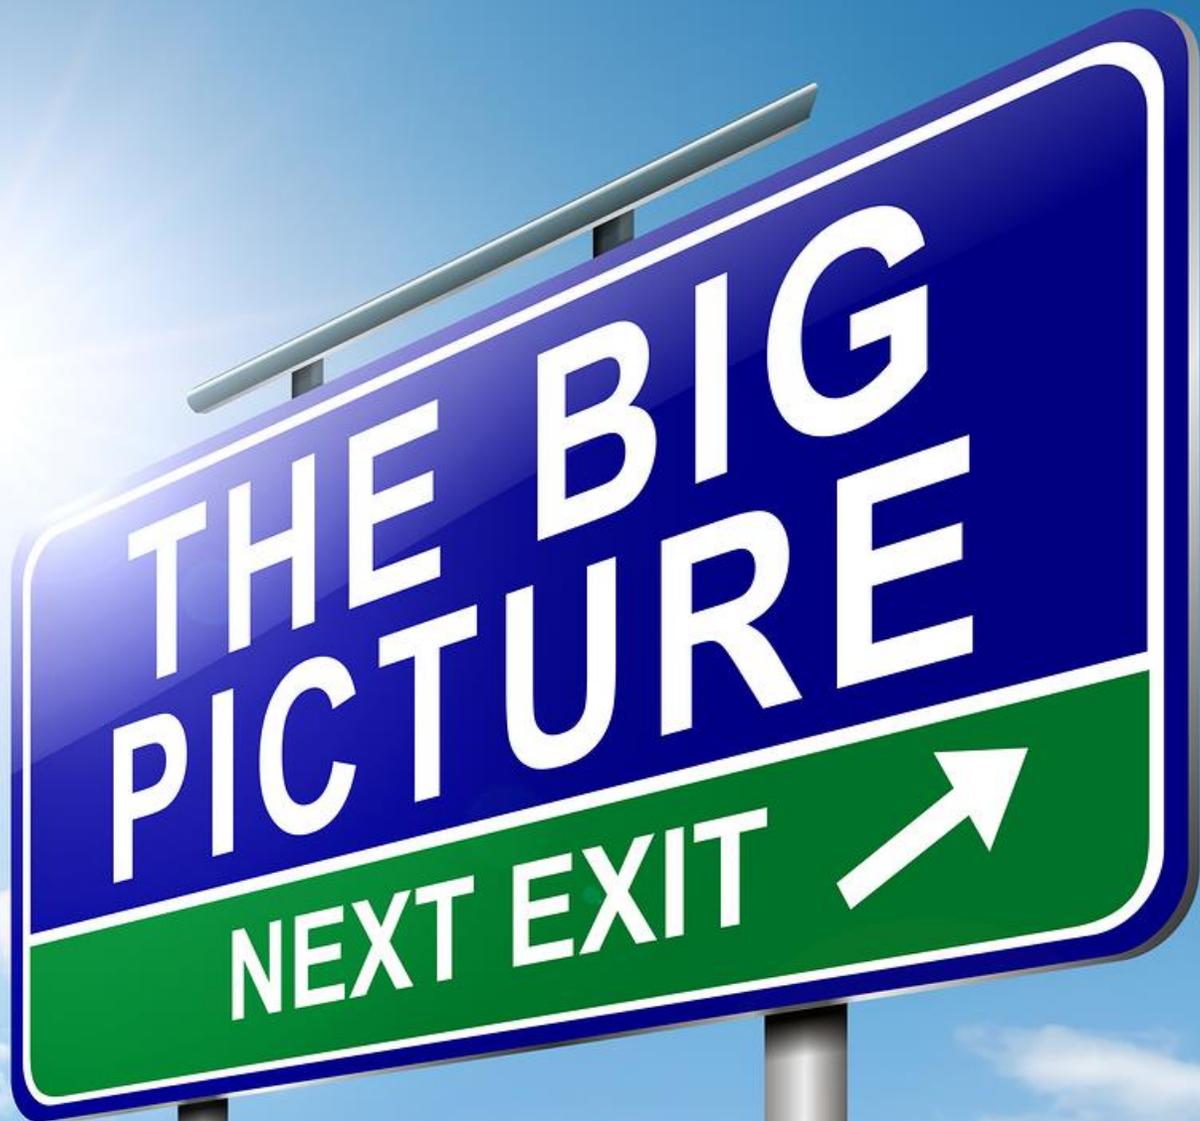

## What we do for you:

- We support and maintain the platform
- We handle the Carriers
- We support you
- We train you
- We provide white label marketing

**You focus on selling and supporting your customers!**

Since  
2005

### **Full Service**

For the small to medium service provider.  
Concentrate on Selling, Not running a platform.  
Full Redundancy and High Availability.

Q2, 2017

### **SaaS**

For the medium to large service provider.  
Bring your own carriers model, Not Hardware.  
Be a Talking Platforms or a Hosted Class 5 Switch.  
Full Redundancy and High Availability.
